

GATOR™ WORK SERIES

HPX & TRADITIONAL UTILITY VEHICLES

JOHN DEERE

RUN WITH US

Hard work is in their DNA

Our Gator™ Work Series loves work as much as you do. Because they're equipped with our Deluxe Cargo Box that shines under heavy stress and extreme conditions. These are the time-tested models that crave a full load, stop with dead-eye precision and deliver an intense bang for your hard-earned buck. Gas, diesel or electric, pick the Gator™ UV that's right for you. And let's get to work.

12-volt DC outlets The same kind you'll find on most Gator™ UV's are similar to the ones in boats and trucks. Keep your phone charging at all times.

Every brake system is precisely matched to the vehicle load capacity. Stop with confidence.

A standard gas assist shock underneath the bed makes lifting and dumping effortless. An optional power lift kit raises and lowers bed from a switch right on the dash.

Generous Cargo Box is built with tough, composite materials. Its 16.4 cu. ft (.56 cu. m.) can handle 1,000 lb. (450 kg) easy.

Pick-up style tailgate folds out to 90 degrees, and down a full 150 degrees. Protect your investment with a factory-installed spray-on bedliner. Optional brake/tail light kit helps you stand out on the worksite. Tie-down points let you secure cargo.

*The engine horsepower and torque information are provided by the engine manufacturer to be used for comparison purposes only. Actual operating horsepower and torque will be less. Refer to the engine manufacturer's web site for additional information. **Includes 200-lb. operator and 200-lb. passenger and maximum box capacity.

This workhorse is a thoroughbred.

The Gator™ HPX has been engineered to impress. With its exceptional payload and towing capacity, deluxe heavy-duty cargo box and enhanced 4-wheel suspension, it is the alpha of any work site. It hits a top speed of 25 mph (40 km/h), so you'll get jobs done fast. The HPX even has a wide wheelbase and low center of gravity for stability when tackling tricky terrain. Advantage, you.

4WD instant engagement provides traction with a flip of a switch. Auto-locking electronic differential button provides a more automotive feel for instant engagement at your fingertips.

The hydroformed frame on the HPX has incredible tolerance for twisting and heavy loads.

GATOR™ HPX615E (Gas) / HPX815E (Diesel)

Specifications

Easy-to-read dash panel lets you quickly scan your speed, gear position, and now, fuel level.

Shift Control Lever with integrated park brake features definite shift stops, making this our easiest, most accurate shifting Gator™ UV yet.

Tailgate lights increase visibility for backing in dusk or low-light conditions. Shown here with optional Tail Light Protectors.

More everything (even wheels).

The very definition of heavy duty, with more power, more can-do and even more wheels. Gas or diesel, the Gator™ TH 6x4s are known for digging in and moving earth. They take stability to the extreme with an extra-long wheelbase and low center of gravity. The high-capacity (and highly versatile) Deluxe Cargo Box is a stand-out standard. Add to all that long-lasting wet disc brakes, independent front suspension, a versatile glove box and a 12-volt DC outlet and you've got your workday's MVP.

Six-wheel design Offers excellent traction, while remaining turf friendly. Includes standard traction assist.

Generous Cargo Box The 16.4 cu. ft (.56 cu. m.) reinforced cargo box includes a gas-assist shock for easier lifting and dumping and a pick-up style tailgate, 20 integrated tie-down points, and removable composite side panels and tailgate for flatbed operation. (Also available: a factory-installed spray-on bedliner)

Monster power. Creature comforts.

Step up to the Gator™ TX. This top of the line two-wheel drive boasts intense horsepower and a Deluxe Cargo Box that's equal parts versatile and invaluable. While tuned four-wheel suspension and high-back seats mean comfort comes standard. And no matter if you're towing a full load or not, its hydraulic disc brakes deliver a quick stop and a standard rear receiver hitch makes towing a breeze.

Power under the hood delivers exceptional torque, great low-end lugging power and fast acceleration everywhere you go.

No matter what you haul, the Gator™ TX delivers a smooth ride, courtesy of its four-wheel suspension with coil over shock, triple-rate adjustable springs.

Easily remove the composite sides to convert the box to a flat-bed mode that's perfect for carrying large, awkward loads like plywood sheets, bales of hay and tables.

GATOR™ TX 4X2 / TX 4X2 CALIFORNIA Specifications

ENGINE AND ELECTRICAL

GATOR™ TS 4x2

Versatility meets value.

The Gator™ TS UV has remarkable cargo capacity with a feather-light footprint on turf (only 7.5 psi—that's less than your foot!). It's powered by a 401cc gas engine, comes standard with mid-back bucket seats, a rugged cargo box, a 12-volt DC outlet for keeping your phone charged, independent front-wheel suspension (perfect for rough terrain) and differential lock to help you handle slippery situations. All this and affordable, too.

GATOR™ TE 4X2 ELECTRIC

From zero to amazing.

Go electric, and see what zero can do. Zero emissions. Zero fuel consumption. Whisper quiet and tackles your entire workday or to-do list on a single charge[†]. All while sacrificing ZERO in power and performance—this Gator™ hauls up to 500-lb (227-kg) with the same versatile Deluxe Cargo Box you'll find on the TX and TH models. A UL-approved charger that automatically shuts off after reaching a charge comes standard. So make the change. The feeling will be positively electric.

GATOR™ TE 4X2 ELECTRIC Specifications

DRIVE SYSTEM	
Motor	6.0 hp (4.6 kW) separately excited D.C. motor (30 minute S2 rating)
Controller	Separately excited, 400 current limit
Transaxle	16.99:1 ratio with helical gearing
Electrical System	48 volt system
Gear Selection	Forward, Neutral, Reverse
Battery	Trojan T-105
Extended Run Time Battery	Trojan T-145
BRAKES	
Type	Dual rear wheel mechanical drum, auto adjust
Park Brake	Hand operated, multi-latch
TIRES	
Front	22.5x10.00-8, 4-ply hi-flotation turf
Rear	25x12.00-9, 4-ply hi-flotation turf
